OUR MODULATING GAS FURNACES HAVE **PREMIUM SALES POTENTIAL!**

When you compare modulating gas furnaces, the Amana brand offers more features that help you close more sales. Let's start with the **Lifetime Unit Replacement Limited Warranty.*** This is an Amana brand heritage that speaks directly to the reliability of the entire line of our gas furnaces.

And what is the most critical component of a gas furnace? The heat exchanger! Amana brand's Million-Air[®] stainless steel primary heat exchanger has cycled over 2.3 million times in our test laboratory and hasn't stopped yet. When you combine the precise temperature control of a modulating (35% - 100%) gas furnace with the ComfortNet[™] control system

you have the potential to offer the easiest to install, most precise temperature control, and energy-efficient heating system available from the Amana brand.

Not only does an Amana brand gas furnace last and last and last, it offers more and more and more. Visit www.amana-hac.com or call us at **888.292.6262.**

*Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the 10-Year Parts Limited Warranty and the Lifetime Unit Replacement Limited Warranty good for as long as you own your home, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. Amana is a trademark of Maytag Corporation or its related companies and used under license to Goodman Company, L.P. All rights reserved.
